

OPTIMUS 2

2.322

Authorised client weight
150 kg + 10 kg additional load

15 km/h model
120 kg + 10 kg additional load

Optimus 2 incl. RS-Edition
(CODE 2201)

MEYRA®

E-POWER

Aluminium rims

Excellent traction and off-road mobility

Comfortable control

Optimal sitting comfort - optimal adjustability

Excellent strength – super power

COST EFFECTIVENESS

- Long-life thanks to high-end materials and great durability thanks to precision steel frame (user weight up to 150 kg + 10 kg additional load, for 15 km/h model 120 kg + 10 kg additional load)
- simple adjustment, also subsequently, of drive characteristics, accessory options, special controls and seat unit
- the R-Net electronics as standard facilitate simple controlling and excellent programming
- long-term supply of spare parts thanks to extensive network of specialist retailers
- little need for repairs

THERAPEUTIC BENEFITS

- very good safety design of components, e.g. halogen headlamps and drum brakes as standard
- choice between various seat units for maximum support
- also for complex care, e.g. with electrically operated seat and backrest angle adjustment
- individually programmable drive characteristics allow for fully customizable adjustment to the handling by the user both indoors and out
- wide variety of special operator controls available

APPLICATIONS

- for permanent and all-day use in everyday life, predominantly outdoors
- for users that use a manual wheelchair or walking aid indoors, but need more support when outdoors
- safety and reliability when mobile outdoors are ensured by the direct steering
- the independent wheel suspension system and significant climbing power are ideal for rough terrain
- covers great distances thanks to the perfect drive characteristics and, if needed, the use of large batteries
- small turning circle for use in interior spaces
