

iCHAIR XXL

1.614

Authorised client weight
XL: 200 kg + 10 kg standard
XXL: 250 kg + 10 kg option

MEYRA®

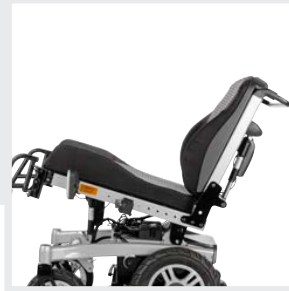

E-POWER

Reinforced components ensure great stability

Powerful motor

Tilt-in-space

Long-life LED light

The ideal model for strong characters

COST EFFECTIVENESS

- efficiency thanks to simple maintenance and a high degree of ease in servicing
- little need for repairs as a result of the use of high-end and long-life components
- the modular design of the iChair family means great compatibility of components
- multiple settings allow for individual adjustment
- optimal user size limits make reuse simpler, for example a standard user weight limit of 200 kg

THERAPEUTIC BENEFITS

- ideal for maintaining mobility at home, at the work station and around the office
- effective pressure relief and relaxed positioning for long periods of sitting are facilitated by the large, electrically operated adjusting areas
- various seat units corresponding to individual needs

APPLICATIONS

- for both indoors and out
- for permanent and all-day use for independent mobility, even for more advanced functional disorders
- for working and active people who require a wheelchair for numerous everyday situations
- suitable for outdoor use thanks to large tyres as standard and optionally available 10 km/h version
- interior spaces are mastered with ease thanks to the compact design and high manoeuvrability
