MEYRA®

Individual setting made easy

Elegant frame design

Smooth pressure brake

Newly designed steering head socket

A strong character

COST EFFECTIVENESS

- for long-term care, with adjustment options to carry out different functions, which saves subsequent costs
- comes with a comprehensive range of standard equipment, which reduces the need for expensive customisations
- minimal wear and tear thanks to the integral design of the frame and the quality of the components

THERAPEUTIC BENEFITS

- the optimal smoothness and lightweight design facilitate the independence of the user
- can be adjusted to suit various functions and individual needs of the user thanks to precise adjustments of back, seat and chassis
- comprehensive range of equipment for long-term users

APPLICATIONS

- for permanent and long-term care
- for people with paraplegia
- very well suited for various conditions, also for severely disabled people
- for users lacking the function of their lower extremities (lateral transfer, propelled with hand rims)
